📁 PROJECTS

ATAK Learning Platform
May 2023 – present
Building an online platform that offers a wide range of courses covering a variety of topics, including computer science and more. The platform provides courses taught by professors and experts in their respective fields.

Netflix Clone
May 2023 – present
A copy version of Netflix. I used the TMdb key to get the movies and postman to view the different API response and for the movies traileur I used "react-youtube" and "movie-traileur" to get the movie URI.

Weather App
May 2023 – May 2023
The weather app allows you to enter the name of a city and instantly receive the current weather conditions for that location.
